

Presentación

Un elevado número de disciplinas académicas y, por ende, de profesionales, sitúan la adicción a las drogas como objeto de su análisis: médicos, psicólogos, psiquiatras, educadores, trabajadores sociales, profesores y estudiantes universitarios, enfermeros, sociólogos, farmacéuticos, periodistas, juristas, criminólogos...

Nos encontramos ante colectivos de especialistas volcados en su trabajo cotidiano que, obligados a actualizar permanentemente sus conocimientos para la correcta ejecución de las actuaciones en las que participan, se encuentran con el problema básico de acceder a un ingente volumen de documentación, que se halla dispersa en múltiples fuentes. Y para ello cuentan con muy poco tiempo disponible.

Con el objetivo de facilitar el acceso a dicha documentación, desde marzo de 1999 se viene realizando por este Centro de Documentación e Información un Boletín Bibliográfico, con carácter trimestral, en el que se recogen las principales novedades que sobre drogodependencias han tenido entrada en el fondo documental del Centro durante ese periodo de tiempo.

En julio de 2002, aprovechando las ventajas que ofrecen las nuevas tecnologías de la información (mayor rapidez de distribución, localización más cómoda de la documentación...) optamos porque dicho Boletín Bibliográfico (número 11) adquiriera formato electrónico, permitiendo su difusión a través de direcciones de correo electrónico (e-mail), así como su inclusión permanente en el punto de acceso al Centro de Documentación e Información de nuestra página web.

El Boletín, como en números anteriores, contiene los epígrafes siguientes: Introducción, Sumario de Revistas, Principales Novedades Bibliográficas (clasificadas por su temática) y Legislación.

A la espera de que este instrumento sea de utilidad, quedamos a la espera de cuantas consultas y/o sugerencias queráis formular.
